JOURNAL OF ELECTROANALYTICAL CHEMISTRY

Subject index

Ac voltammetry
Ac voltammetric and impedance studies of the electrochemical oxidation of pyrrole in aqueous medium (Shiu et al.) 105
Adsorption
Adsorption of nicotinamide and nipecotamide from aqueous solutions at the mercury electrode (Jurkiewicz-Herbich et al.) 191
Anion–surface interactions
Anion–surface interactions. Part 3. N_2O reduction as a chemical probe of the local potential of zero total charge (Attard, Ahmadi) 175

Bilayer lipid membranes
Ion transfer through a liquid membrane or a bilayer lipid membrane in the presence of sufficient electrolytes (Shirai et al.) 61
Binary solvents
Preferential solvation of silver(I)-cryptand-2,2,2 perchlorate complex in water + acetonitrile and methanol + acetonitrile mixtures (Kalidas, Raghunath) 79

Calorimetry
Calorimetric studies of highly loaded deuterides and hydrides of palladium (Green, Quickenden) 91
Carbonate eutectic
Behaviour of nickel species in molten $Li_2CO_3 + Na_2CO_3 + K_2CO_3$. Part 1. Thermodynamic approach and electrochemical characterization under $P(CO_2) = 1$ atm (Malinowska et al.) 21
Carbon electrodes
In situ electron spin resonance and electrochemical studies of 2,3-dicyano-hydroquinone modified porous carbon electrodes (Jiang et al.) 55
Cation radicals
Electrochemical evidence for intramolecular reactions of the electrogenerated cation – radicals of some amidoenamines (Audebert et al.) 215
Cold fusion
Calorimetric studies of highly loaded deuterides and hydrides of palladium (Green, Quickenden) 91
Combined information
Simultaneous UV–visible spectroelectrochemical and quartz crystal microgravimetric measurements during the growth of poly(1-naphthylamine) film (Xu et al.) 85
Copper
Chemical and electrochemical behaviour of copper species in the molten eutectic mixture $Na_2CO_3 + K_2CO_3$ at 800°C (Claes et al.) 37
2,3-Dicyano-dihydroquinone
In situ electron spin resonance and electrochemical studies of 2,3-dicyano-hydroquinone modified porous carbon electrodes (Jiang et al.) 55
Dipole model
The role of solvent dipole structure on the capacitance of charged interfaces (Gao, White) 13

Electroactive polymer
Overall redox switching characteristics of osmium-containing poly(4-vinylpyridine) films immersed in aqueous *p*-toluenesulphonic acid (Clarke et al.) 129
Electrocatalysis
Enhanced oxygen evolution on an electrodeposited ruthenium + iridium coating on titanium (Čukman et al.) 209
Electrochemical graphite intercalation
Potential oscillations during galvanostatic overoxidation of graphite in aqueous sulphuric acids (Beck et al.) 161
Electrochemical graphite oxide
Potential oscillations during galvanostatic overoxidation of graphite in aqueous sulphuric acids (Beck et al.) 161
Electrochemical kinetics
Stepped-potential voltammetries at stationary electrodes. Part 2. Normal pulse voltammetry and related methods (Fatouros et al.) 31
Electrochemical quartz crystal microbalance
Overall redox switching characteristics of osmium-containing poly(4-vinylpyridine) films immersed in aqueous *p*-toluenesulphonic acid (Clarke et al.) 129
Electrochromic devices
In situ monitoring of electrode polarisation during the operation of an electrochromic device based on WO_3 (Shen, C. Tseung) 219
Electrodeposition
Enhanced oxygen evolution on an electrodeposited ruthenium + iridium coating on titanium (Čukman et al.) 209
Electro-oxidation
Oxidation of *N*-nitrosamines at a ruthenium-based modified electrode in aqueous solutions (Gorski, Cox) 123
Electropolymerization
Ac voltammetric and impedance studies of the electrochemical oxidation of pyrrole in aqueous medium (Shiu et al.) 105
Electroreduction
Kinetics of the electroreduction of tris(acetylacetonato)chromium(III) in nonaqueous solvents (Urbańczyk et al.) 141
Anion–surface interactions. Part 3. N_2O reduction as a chemical probe of the local potential of zero total charge (Attard, Ahmadi) 175
Electrochemical reduction of the phytotoxin cercosporin (Clark et al.) 205
Electrosynthesis
Electrochemical evidence for intramolecular reactions of the electrogenerated cation – radicals of some amidoenamines (Audebert et al.) 215
Enamines
Electrochemical evidence for intramolecular reactions of the electrogenerated cation – radicals of some amidoenamines (Audebert et al.) 215
ESR
In situ electron spin resonance and electrochemical studies of 2,3-dicyano-hydroquinone modified porous carbon electrodes (Jiang et al.) 55

Fiber optic spectroelectrochemistry
Simultaneous UV–visible spectroelectrochemical and quartz crystal microgravimetric measurements during the growth of poly(1-naphthylamine) film (Xu et al.) 85
Film growth
Growth of thin, hydrous oxide films at Pd electrodes (Zhang et al.) 149

Formic acid
Performance of CO-electrodeposited Pt-Ru/WO_3 electrodes for the electrooxidation of formic acid at room temperature (Shen et al.) 223

Heteropolyoxometalates
Charge dependence of one-electron redox potentials of Keggin-type heteropolyoxometalate anions (Maeda et al.) 167
pH sensor
Simultaneous UV–visible spectroelectrochemical and quartz crystal microgravimetric measurements during the growth of poly(1-naphthylamine) film (Xu et al.) 85

Impedance
Ac voltammetric and impedance studies of the electrochemical oxidation of pyrrole in aqueous medium (Shiu et al.) 105
Interfacial capacitance
The role of solvent dipole structure on the capacitance of charged interfaces (Gao, White) 13
Ion selectivity
An equivalent circuit model of ion-selective membrane|insulator|semiconductor interfaces used for chemical sensors (Demoz et al.) 71
Ion transfer
Ion transfer through a liquid membrane or a bilayer lipid membrane in the presence of sufficient electrolytes (Shirai et al.) 61
Ion transport
Ion and pore fluid transport properties of a Nafion® membrane separating two electrolyte solutions. Part I. Kinetics of the proton and alkali metal cation transport (Samec et al.) 1

Keggin anions
Charge dependence of one-electron redox potentials of Keggin-type heteropolyoxometalate anions (Maeda et al.) 167
Kinetics
Ion and pore fluid transport properties of a Nafion® membrane separating two electrolyte solutions. Part I. Kinetics of the proton and alkali metal cation transport (Samec et al.) 1

Liquid membranes
Ion transfer through a liquid membrane or a bilayer lipid membrane in the presence of sufficient electrolytes (Shirai et al.) 61

Macrocyclic ligands
Preferential solvation of silver(I)-cryptand-2,2,2 perchlorate complex in water + acetonitrile and methanol + acetonitrile mixtures (Kalidas, Raghunath) 79
Mathematical model
Stepped-potential voltammetries at stationary electrodes. Part 2. Normal pulse voltammetry and related methods (Fatouros et al.) 31
Diffusional mass transport to microband electrodes of practical geometries: a simulation study using the strongly implicit procedure (Alden et al.) 45
Charge dependence of one-electron redox potentials of Keggin-type heteropolyoxometalate anions (Maeda et al.) 167
Mercury electrode
Adsorption of nicotinamide and nipecotamide from aqueous solutions at the mercury electrode (Jurkiewicz-Herbich et al.) 191
Methylene blue
Electrochromism of methylene blue absorbed on the basal plane of graphite (Lezna et al.) 197
Modified electrodes
Characterization of metallopolymer films from reductive electrochemical polymerization of a dinuclear cobalt complex (Ren et al.) 115
Oxidation of *N*-nitrosamines at a ruthenium-based modified electrode in aqueous solutions (Gorski, Cox) 123
Overall redox switching characteristics of osmium-containing poly(4-vinylpyridine) films immersed in aqueous *p*-toluenesulphonic acid (Clarke et al.) 129
Direct electrochemistry of putidaredoxin at a modified gold electrode (Wong, Vilker) 201
Molten carbonates
Chemical and electrochemical behaviour of copper species in the molten eutectic mixture $Na_2CO_3 + K_2CO_3$ at 800°C (Claes et al.) 37

Nafion®
Ion and pore fluid transport properties of a Nafion® membrane separating two electrolyte solutions. Part I. Kinetics of the proton and alkali metal cation transport (Samec et al.) 1
Nicotinamide
Adsorption of nicotinamide and nipecotamide from aqueous solutions at the mercury electrode (Jurkiewicz-Herbich et al.) 191
Nipecotamide
Adsorption of nicotinamide and nipecotamide from aqueous solutions at the mercury electrode (Jurkiewicz-Herbich et al.) 191
N_2O
Anion–surface interactions. Part 3. N_2O reduction as a chemical probe of the local potential of zero total charge (Attard, Ahmadi) 175

Organic thin films
Electrochromism of methylene blue absorbed on the basal plane of graphite (Lezna et al.) 197
Oxidation
Performance of CO-electrodeposited Pt-Ru/WO_3 electrodes for the electrooxidation of formic acid at room temperature (Shen et al.) 223
Oxide films
Growth of thin, hydrous oxide films at Pd electrodes (Zhang et al.) 149

P450
Direct electrochemistry of putidaredoxin at a modified gold electrode (Wong, Vilker) 201
Palladium deuterides
Calorimetric studies of highly loaded deuterides and hydrides of palladium (Green, Quickenden) 91
Palladium hydrides
Calorimetric studies of highly loaded deuterides and hydrides of palladium (Green, Quickenden) 91
Pd electrodes
Growth of thin, hydrous oxide films at Pd electrodes (Zhang et al.) 149
Phytotoxins
Electrochemical reduction of the phytotoxin cercosporin (Clark et al.) 205
Plant parasites
Electrochemical reduction of the phytotoxin cercosporin (Clark et al.) 205
Polarisation
In situ monitoring of electrode polarisation during the operation of an electrochromic device based on WO_3 (Shen, C. Tseung) 219
Pore fluid transport
Ion and pore fluid transport properties of a Nafion® membrane separating two electrolyte solutions. Part I. Kinetics of the proton and alkali metal cation transport (Samec et al.) 1
Potential of zero charge
Anion–surface interactions. Part 3. N_2O reduction as a chemical probe of the local potential of zero total charge (Attard, Ahmadi) 175
Potential oscillations
Potential oscillations during galvanostatic overoxidation of graphite in aqueous sulphuric acids (Beck et al.) 161
Protein electrochemistry
Direct electrochemistry of putidaredoxin at a modified gold electrode (Wong, Vilker) 201

Pyrolytic graphite
Electrochromism of methylene blue absorbed on the basal plane of graphite (Lezna et al.) 197
Pyrrole
Ac voltammetric and impedance studies of the electrochemical oxidation of pyrrole in aqueous medium (Shiu et al.) 105

Quartz crystal microbalance
Simultaneous UV–visible spectroelectrochemical and quartz crystal microgravimetric measurements during the growth of poly(1-naphthylamine) film (Xu et al.) 85

Rate constants
Kinetics of the electroreduction of tris(acetylacetonato)chromium(III) in nonaqueous solvents (Urbańczyk et al.) 141
Redox potentials
Charge dependence of one-electron redox potentials of Keggin-type heteropolyoxometalate anions (Maeda et al.) 167
Reductive polymerization
Characterization of metallopolymer films from reductive electrochemical polymerization of a dinuclear cobalt complex (Ren et al.) 115
Ruthenium + iridium film
Enhanced oxygen evolution on an electrodeposited ruthenium + iridium coating on titanium (Čukman et al.) 209
Ruthenium oxides
Oxidation of *N*-nitrosamines at a ruthenium-based modified electrode in aqueous solutions (Gorski, Cox) 123

Solubility
Behaviour of nickel species in molten $Li_2CO_3 + Na_2CO_3 + K_2CO_3$. Part 1. Thermodynamic approach and electrochemical characterization under $P(CO_2) = 1$ atm (Malinowska et al.) 21
Solvation energy
Charge dependence of one-electron redox potentials of Keggin-type heteropolyoxometalate anions (Maeda et al.) 167
Solvent effects
Kinetics of the electroreduction of tris(acetylacetonato)chromium(III) in nonaqueous solvents (Urbańczyk et al.) 141
Solvent orientation
The role of solvent dipole structure on the capacitance of charged interfaces (Gao, White) 13
Spectroelectrochemistry
Electrochromism of methylene blue absorbed on the basal plane of graphite (Lezna et al.) 197

Thermodynamic data
Behaviour of nickel species in molten $Li_2CO_3 + Na_2CO_3 + K_2CO_3$. Part 1. Thermodynamic approach and electrochemical characterization under $P(CO_2) = 1$ atm (Malinowska et al.) 21
Titanium electrode
Enhanced oxygen evolution on an electrodeposited ruthenium + iridium coating on titanium (Čukman et al.) 209
Tris(acetylacetonato)chromium(III)
Kinetics of the electroreduction of tris(acetylacetonato)chromium(III) in nonaqueous solvents (Urbańczyk et al.) 141

Viscoelasticity
Overall redox switching characteristics of osmium-containing poly(4-vinylpyridine) films immersed in aqueous *p*-toluenesulphonic acid (Clarke et al.) 129
Voltammetry
Behaviour of nickel species in molten $Li_2CO_3 + Na_2CO_3 + K_2CO_3$. Part 1. Thermodynamic approach and electrochemical characterization under $P(CO_2) = 1$ atm (Malinowska et al.) 21

Zone model
Potential oscillations during galvanostatic overoxidation of graphite in aqueous sulphuric acids (Beck et al.) 161
